

## Management Services

PD Solutions is committed to provide SOLUTIONS to their clients including:

- the public sector;
- private sector, and
- various funding agencies

by offering innovative services in the implementation of large and complex projects. We distinguish between the following:

- **STRATEGIC PORTFOLIO MANAGEMENT** is purely a strategic service aimed to ensure that our Client's delivery objectives are met within their political and institutional mandate.

This service is particularly relevant to large funds where strategic objectives have to be met over the longer term.

- **PROGRAM / FUND MANAGEMENT** ensures that the funds are spent (usually on a number of projects) within acceptable auditing, legal, time and quality constraints.

**Program** A group of projects managed in a coordinated way to obtain benefits not available from managing them individually.

*PMBOK*

This service is particularly relevant to the disbursement of **large amounts of money** to **various projects** through periodic payments against certain project milestones.

- **COMPLEX PROJECT MANAGEMENT** ensures that specific projects are completed ahead of time and within cost and quality constraints.

**Project:** A temporary endeavour undertaken to create a unique product or service.

**Project Management** is the application of knowledge, skills, tools and techniques to project activities in order to meet or exceed stakeholder needs and expectations from a project.

*PMBOK*

This service is particularly relevant to **complex projects** with a team of multi-disciplinary role players, where specific time frames have to be met given tight cost and quality constraints.
